LOCAL AND GENERAL.

TELEGRAPHIC information has been received of the discovery of another gold-bearing reef on the Raub Co.'s property.

MR. MACDONALD CAMERON, M.P., was robbed of ten £5 Bank of England notes at the Raffles Hotel, Singapore, on the night of the oth inst. They were stolen from his trousers pocket during | For the first time, we believe, in the history of the night.

THE P. and O. steamship Venetia (Capt. Crery) which arrived here yesterday morning from Singapore "spoke" a ship signalling J. R. Z. K on the 10th inst., off Macclesfield Bank, standing to the north-east.

OUR suggestions the other day re the Punjom Co.'s meeting have been promptly acted upon by the Directors. From a notice in our advertising columns it will be seen that the meeting will be held in the Chamber of Commerce room, City Hall, on Monday next, at noon.

THE withdrawal of so many troops from Tonquin has encouraged the bands of brigands to renew their activity. Several serious encounters are reported around Haiphong and Hanoi. One body stormed the gaol at Sontay, killing the warder and releasing 160 prisoners.

SOMEBODY will be getting burt yet, in Saigon M. Cormiel, captain of marine infantry. interviewed M. Perchuel, a pllot, on the racecourse at 5 s.m. on the 10th inst., and as, of course, one of the two had sent a warning chit to the police, they had to foot it to a village a long way off, where they swapped bullets bloodlessly and then went back to breakfast like brave men.

IT is reported from home on what ought to be reliable authority that Mr. Samuel Barff, who was for years Assistant Postmaster under the late Mr. Lister, has received the vacant appointment of Posimaster General. Mr. Barff's long years of service and thorough business experience could hardly be overlooked by the Secretary of State in nominating a successor to Mr. Lister.

THE Shanghai Mutual Steam Navigation Co. has been formed into the "Shanghai Steam Ship Company, Limited," and has been registered in Hongkong. The capital is Shanghai Tis. 500,000, in 10,000 shares of Shanghal Tis. 50 each. The steamers Feiching, Fellung, and Feima, according to the Mercury, will be taken over by the new company. A great deal of the capital has already been taken up.

THE travelling thief who stole a \$500 bill of exchange from a fellow passenger on board the German steamer Aglaia a fortnight ago, while on a voyage from Singapore to Hoagkong, and tried to sell it to Messrs. Douglas Lapraik and Co.'s compradore for the trifling sum of \$250, made his final appearance before Mr. Wise at the Police Court on the 20th inst., when a sentence of three months' imprisonment with hard labour was passed upon him.

THE Chinking correspondent of our Shanghai evening contemporary writes under date the 13th inst.: - During the past week large shipments of grain have been made, principally for the Southern ports. Rain is much needed by the agriculturists; the crops are all harvested and are above the usual average. Improvements in the port continue; a number of semi-foreign houses are in course of erection on the site of the last vacant lot on the Bund, which will prove a remunerative investment to the owner of the property.

MR. A. G. Wise is becoming the dread of the numerous " fake " club managers of this colony, as Mong Kai Su, manager of a "club" situated at 8, Graham Street, recently raided by Inspector Hansen, testified at the Police Court on the 20th of the foreign loan. The following sums were inst, as soon as the magisterial fiat, "three to be forwarded to Peking direct: Tis. 6,000 months with hard labour," went forth from the | quarterly for augmenting the salaries of Peking Beach. Said friend Mong, "too much ! He's angry! He's a terror!". We hope Mr. Wise is a "terror" to these unscrupulous vagabonds. and that what with sharply administered justice and estreated bail we shall soon have Hongkong fairly clear of Tss-fa, Wai-sing, Pak-kap-pin lotteries, and Fan-tan, Pai-kau and Tin-ti-kuk dens, otherwise known as gentlemens' clubs i

SAYS the Shanghal Mercury :- We hear on authority that, in addition to the numerous other enterprises which Chang Chih-tung, Viceroy of the Liang Hu, has upon his hands at the moment, cotton mills, mining and smelting works, etc., he is now about to supply Wuchang | the Hongkong Jockey Club meeting of 1801, with water through pipes upon the European | which arrived from Shanghai by the steamship system, and further that he has sent down to Shanghal to engage suitable persons to carry out Kennedy's Horse Repository on the 20th in the scheme and give the people of his capital | the presence of a fair member of local "sports." the benefits of an unlimited supply of good Fromahasty and necessarily superficial examinawater. His schemes are well begun, W. but they never seem to get finished.

KWONG WOX LING, a visitor to the Grand Hotel, Queen's Road West, seems to be more iontunate than most of his fellow-citisens. He appears to be the happy possessor of no fewer than three better-halves-No. 1 Chinese, No. 2 European, No. 3 Chinese. So that the European wife, Madam Jessie, is between two fires. There was, at one time, trouble in the ranks of the is godly Brigham Young's familiy and as might be expected family trouble has occurred in the "Grand," that well-known hotel being the scene of a very discreditable "female scramble" last Saturday morning, in which Mesdames Yi and Sam had a slogging match in the public street, and a hair-tearing and scratch- appeared in her usual health on Sunday evening, ing round sambored in the bar. Madam Yi when a small party of friends were entertained finally beat a retreat, and escaping with her at dinner. At 0.30 yesterday morning Mr. mother by a back door, flew up to the Central Livescy left her sitting on the verandah, Police Station where summonses were taken out apparently as well as ever, when he went aboard against Madam Sam, a pretty little Canton lady, a Chinese cruiser, lying a short distance off and her aunt. ON Friday evening last the Chinese Custom House officers had a lively time on the other. side of the frontier with a party of smugglers who had succeeded in landing about \$3,000 worth of opium. They were about 500 yards across the frontier when the officers fired on them, killing one man and capturing two others, together with the opium.

THE Bangkok Times of the 4th inst, says:-Bangkok as a port, five large vessels left her roads this week bound for Europe and loaded with full cargoes of rice. They were the Paul Richmers, the Mieremei, the Wooltone and the steamships Breconshire and Parkfield, Together they carried away with them some 180,000 piculs.

FIVE Mexican dollars was the sum of money which Mr. Chan Kam Yi, of Mosque Terrace, had the pleasure of contributing to our wellnigh exhausted Treasury owing to his having allowed fire-crackers to be let off the greater part of last Friday night in and around his premises. It was "too muchee happy, makee mally, pidgin," in which Mr. Wise could scarcely be expected either to take part or condone the offence, in response to Mr. Caldwell's pathetic appeal for

It is feared that the barque Alice Muir, which left Albany, Australia, for Hongkong, heavily laden with sandal-wood, the day previous to the departure of the Nicoya, has come to grief. She could scarcely have escaped the typhoons encountered by the Niceya, and as she is far from being so staunch a vessel, there is unfortunately too much reason to suppose that she has foundered. It is significant that nothing more has been heard of the sailing ship sighted by the "Blue funnel" steamer Dardanus, with only a stump of a foremast standing, about 60 miles to the south of Hongkong.

IT appears that Liu Ming-chu'an, Governor of Formosa, whose resignation we reported some time since, has actually been degraded. An Imperial decree, dated the 22nd of the last Chinese moon, says that the Board of Civil Office, after due consideration of certain charges brought against Liu (by one of the Censors probably), orders that he be degraded and deprived of his rank and office; but that his Imperial Majesty, taking a merciful view of his case, graciously allows the degraded Governor to retain his office, but confirms the action of the Board in depriving him of his rank.

THE annual general meeting of the Hongkong Football Club will be held at 6 p.m. on Friday. the 24th instant, in the Gymnasium of the Victoria Recreation Club. I is hoped that the following matches will be played during the season:--

WITH reference to the Canton Customs duties the Peking Gazette of the 9th September states that during the present year the Canton Customs were required to supply the following contributions for Imperial purposes :- Tls. 160,000 from the Foreign Customs Revenue for the Peking subsidy; Tis. 120,000 from the six-tenths of the same revenue for further defence measures on the North East, and Tls. 140,000 for frontier preparations in general. All the above were to be retained in Canton and employed in repayment officials, Tls. 40,000 annually for the same purpose, and Tis. 300,000 for the Treasury of the Imperial Household. The Viceroy and Hoppo now report that they have borrowed Tis 127,670 to furnish the second instalment of the above payments, and state that the lenders, some Shansi bankers, will be repaid out of the Customs duties.

to the effect that he is recovering. His Excellency the French Minister and Madame Lemaire are at present in Tientsin on their way to Europe on leave of absence, and Monsieur Ristelhueber is now Charged'affaires

The breaches on the left bank of the Peiho. between Tientsin and Yang-tsun, have been closed and those on the right bank are now being attended to. The water has fallen rapidly on the plain east of Tientsin, and there is a considerable area of dry land round the halfway station between Tientsin and Taku; from the Tongku-Lutai section of the railway, and from the Lutai-Tongshan section, the flood water has almost entirely disappeared.

There is no change in the condition of the river; the channels of the Lower Tombs and Upper Nine Forts still being choked, Steamers have had a bad fime this week, the tide on the Bar for five days being only oft.

We understand the Stewards have selected the 20th, 21st, and 22nd of November for the Autumn Race meeting. The new course is already marked out, and hung up to dry, about three miles down the Taku Road .- Chinese Times.

THE WEEK'S SHARE BUSINESS.

Hongkong, 22nd October, 1890. Business has been very brisk all through the week, an unusual number of transactions having been put through at advancing. rates, and the market closed very firm. Banks.—A number of shares have been gradually picked up at from 227 per cent. FOR THE HONGKONG AND SHANGHAI to 2281 for the 25th instant, and at from 234 to 235 for the 25th December, the stock closing in strong demand at 228 for cash.

New Issues are in demand at \$252; but. holders are not willing to part at that rate. Marines -- Some sales of Unions have been effected at \$93 per share ex dividend. Traders are in great demand at 863, and Cantons are wanted at 8118 per share ex dividend.

Fires. Hongkongs continue out of favor, and are nominally quoted at 330. Chinas are in demand at \$89, and small [1412 | sales have been effected at that rate;

Docks. - A large number of shares have changed hands at from 74 per cent. premium to 78 for the 25th instant, and also at 78 and 79 per cent. for the 25th December, 81 for the 25th January, 82 for

February, and 83 for March. Steamboats.—A very large business has annum is being paid in Death claims | been done in this stock at from \$35 to \$38 for the 25th instant, \$36 to \$381 for the 25th December, and \$381 to \$39 for the 25th

March. Steamships—Douglas shares have been done at \$46 for cash, and additional offers are now made at that rate. China and Manilas have steadily advanced to \$1221 for cash and \$130 for March.

Sugars-Chinas have been done at \$172 for the 25th inst., and there are now more shares on the market. Luzons, after a large business at from \$106 to \$110 for cash, dropped again to \$100, at which rate shares are still in request.

Ices have been done at \$95 per share, and closed steady.

Watson & Co,'s scrip is slightly out of favor, and a few shares are now offered at \$22. At anything under this figure, however, shares can be readily (lisposed of. Ropes have suddenly come into demand, and cash sales have been effected at \$125 per share. Additional shares could

now be placed at \$126. Minings.-Punjoms have been a good deal of a drug in the market, having dropped down to as low as \$31, at which rate some sales have been effected. Raubs have been done at \$1.30, and Imuris at \$9 for cash. Balmorals are in firm demand at \$12. Tonquin Coal Mines have dropped to \$450, but there are no buyers at anything

over \$400. Wharves have been done at \$75 per share, and there are now sellers at \$73. Planting stocks.—A very large business has been done in these shares, as follows:-

East Borneo.....at \$19 per share, \$50 paid up, Songei Koyah ..., \$16 . " Lamag \$15. . .. Labuk \$20 but rates have again dropped to \$15, \$13, \$11, and \$18 respectively.

H. G. Brown & Co.—Sales of this stock have been effected at from \$53 to \$55 cash, and from 56 to 59 for February. Further shares are now wanted at the latter rates. China Borneos are offered at \$11, but there are no buyers at present.

Lands are for the present quite out of favor, and 91 is merely a nominal rate. Trust & Loan shares are very scarce, and none can be had under \$19% for cash. Nothing else requiring special reference

Sir Richard Burton. [" Men of the Time" gives the following account of the eminent traveller's career :- Captain Sir Richard Francis Burton was the son of Lieutenart-Colonel Joseph Netterville Burton. of Tuem, Galway, and he was born in 1821. He began life at Oxford, and was destined for the Church, but he yearned so much after military service that his father procured him a commission in the Indian Army, and sent him out to Indian in 1842, at the end of the Afghan War. . He was nineteen years in the Bombay Army, eight years in active service, chiefly on the staff of Sir Charles Napier. While in India he became a distinguished linguist, and passed examinations in eight Oriental languages, He made an expedition to Mecca and Medina in 1853: He next explored Harar. THE act of dying, it is now ascertained, is absolutely free from suffering, is really unconscious, insensibility always preceding it. Any anguish that may attend mortal illness ceases before the close, as thousands who have recovered after hope had been surrendered have borne witness. Sudden and violent death, shocking to the senses, may not be, probably is not, painful to the victim. Drowning, hanging, freezing, falling from a height, poisoning of many kinds, beget stuper or numbness of the nerves, which is incompatible with sensation. Persons who have met with such accidents, and survived them, testify to that.

THIS morning, after the Kinklang had turned thoroughly studied and explored it, returning the point at the western extremity of Macao on which stands the thing known as the Barra fort, and got opposite the Praya Grande, a Chinese passenger, tired and wearled of the troubles of this wicked world-and having no money to pay his passage from the Land of Promise to Hongkong-threw bimself overboard. There was great commotion on board the old bone-shaker-you bet. The person suicidally inclined could swim, and as the water was evidently not too warm, and the great unknown didn't prove quite so attractive as he imagined, he tried the game for all it was worth. And he was supported in every way possible by the Kinklang. Capt. Clarke lost no time in bringing the ship to, throwing life buoys overboard, and lowering a boat. All was of no avail, however, as before the boat could reach the struggling lunatic his strength had given way, and he sank to rise no more. ...

To our great disappointment we found that all game had moved further inland, but good accounts were given of whatwe might expe t further on. In the temple we discovered to our surprise that one of the most valued posicisions was an old American clock. How it got there is rather a puzzle, but they prized it highly because they did not understind it. We wound it up, much to the delight of the priests, who thought we had performed a miracle, and we also quietly set the alarum for midnight, so doubtless the story is spreading over Siam that Buddha one night answered the prayers of his faithful servants in an unknown tongue. . . One day the crowd were rather too inquisitive and we desired to make them move; so producing a bottle of smelling salts we told the head priest to sniff hard; this he did, and left suddenly. SUPREME COURT.

IN APPELLATE JURISDICTION. (Before the Full Court.) THE MARINE LOT QUESTION.

adjourned application made by Mr. Francis, Q.C. (instructed by Mr. Mossop) on behalf of the Hon. P. Ryrie, for an interim injunction to restrain the Government from proceeding with the scheme authorised by the Praya Reclamation Ordinance of 1880, was resumed.

Mr. Francis read further affidavits in support of his argument. The first was by the petitioner, Mr. Ryrie, who deposed that he was a merchant, and had resided in Hongkong for thirty-five years, during which he had been largely interested in land, both as owner and agent Land in this Colony was leased from the Crown, as a rule for 999 years, and was divided into inland and marine lots. Marine lots were those bordering on the sea-front, with no buildings in front of them, and always fetched higher prices than the inland lots on account of the privileges understood to belong to them. He was trustee of Marine Lot 82 and the buildings thereon, known as the City Hall, for a large number of shareholders. The funds of the Company were raised in 1864 by the issue of \$100 shares, 500 of which were preferential, and the only restriction in the lease was that the building was to be maintained as a City Hall .-Mr. R. K. Leigh's affidevit set forth that, as an architect, and having had two years' experience as Assistant Engineer in the Surveyor-General's Department, he always understood that a marine lot had an inalienable right of accers along the | \$25,815.80 at Punjom, and \$8,348.45 at Sunghie sea-front, and that the work of reclamation now going on was likely to injure that right,-An their lordships as to the interpretation of the term "marine lot," and pointed on that Mr. Next morning. Ryric was only protecting the interests of the shareholders in the City Hall. This was not a and high buildings erected so as to limit the supply of light and air.

Sir James Russell-There is a public Ordinance authorising the work-do you still argue that it is uitra vires? Mr. Francis did; the lease, he submitted; was

a grant from the Queen, and neither she nor her delegates here could take away the privileges so granted-it was contrary to Magna Charta." An interesting discussion on the question of legislative power here, as compared with Queensland, India, Natal, Grenada, etc., followed, after which.

Sir James Russell pointed out that if the Legislative Council had no power to pass the Praya Reclamation Ordinance they had not power to pass even a Tramway Bill.

Mr. Francis feared that he was mlaunderstood the Council simply could not take away rights granted to a subject by the Queen, Sir James Russell thought the question was

sather that of the Council's appropriative powers; they had fixed a certain method of dealing with the resumption of land, appointing a special tribunal for the purpose. He admitted that there were certain sections which seemed extremely strong, setting aside rights as they did and explorers were altacked in the night by the taken, they were at once stoppen, for only Saturday. appointing only the Governor to decide to wha extent these rights had been laveded.

Mr. Justice Clarke-How can the Queen limit that power by granting a lease? The Council could legislate respecting this land before that caso was granted.

Mr. Francis-She has taken away that power take away rights once granted. They have given such powers in this Ordinance, but I have always held that they did so ultra vires. This question, I may say, is entirely one of law, and if you grant the interim injunction the suit can be disposed of entirely by argument, as there is practically no dispute as to the facts. Sir James Russell said that as the matter was

one of such importance they would take time to consider it.

THE V. R. C. REGATTA.

The rowing members of the Victoria Recreation Club held a meeting in the Gymnasium last evening, to arrange the details of the approaching Regatta, Mr. T. Jackson, President, occupied

Mr. A. G Stephen, acting hon, secretary, said programme of last year. It was proposed to leave out the Youths' race, putting in place of it a sculling race in tubs. The race for senior sculls, which did not take place last year, would be revived. There would also be a regulation introduced this. year that each cox must weigh not less than o stone. It was also proposed to hold the salling races on a different day. The international race would this year be rowed for a Challenge Cup | to England of Mr. J. Ashton Bell, a most able presented by Mr. John Lapraik. (Applause). very handsome cup had been presented which would remain the property of the Club, the names of the winning crew each year being inscribed upon it. A small cup would also be presented each year by the same donor to the winning crew? There would be a meeting on Tuesday next when the crews would be picked. The Singapore | will now be continued with renewed energy. Club had sent a challenge to Hongkong, and any members who could get away at the same time as the cricket team would be good enough to by Mr. Becher, and before long the lower levels

send in their names at once. Mr. J. Sampson suggested an alteration in the | that the richer veins of ore lately discovered will system of training. There were a numer of new members who were anxious to row in this year's Regatta, but they had been unable to of exploration not having shown profitable results practice during the summer owing to there being no B class boats. To enable them to take part in the forthcoming Regatta was necessary, that they should have at least four week's training for the Chairman's Cup under a good coach. The new men could only row in Club races, and it was necessary that they should have thorough training. He therefore begged to propose that during the first four weeks of the training season the hours between and 7 p.m. each day be given up exclusively for training for the Chairman's Cup. He was sorry to see, he might add, that this race, which used to be the chiefrace of the Regatta, was now stuck down at the end of the programme. Mr. Fredericks seconded.

hardly fair to members wishing to row in the open races. The interest taken in the Regatta was not now centred in one race, and he thought it was better that it should be so. He proposed as an amendment that three nights a week be devoted to training for the Chairman's Cup and the other three nights to the open races-the Ladies' Purse, the Garrison Cup, and the International Race.

Mr. A. Denison seconded. races on the programme open to new members; that was a very fair proportion. With regard to re-election. what Mr. Sampson had said about training, there were other hours open besides those he had mentioned. Every civilian who liked to get out of bed early in the morning could practice between 6 and 8.30 a.m., while there were some members of the Club who, even if they did get out of bed early, had other duties to perform which prevented them from training.

The Chairman then put Mr. Stewart's amendment to the meeting, and it was carried by a large majority. Mr. Stephen announced that the Regatta would

be held on the 18th and 19th December. The Chairman hoped that no friction of any kind would occur with regard to this question of training. He thought that if a sportsmanlike feeling were shown everything would be settled satisfactorily. (Applause).

There being no further business the proceedings terminated.

PUNJOM AND SUNGHIE DUA SAMANTAN MINING COM-PANY, LIMITED.

The report for presentation to the shareholders at the fifth ordinary yearly meeting to be held at the rooms of the Chamber of Commerce, City Hall, Hongkong, on Monday next, at noon, is

The Directors have now the pleasure to lay before you the accounts for the half year ending just March, 1890, from which it will be seen that expenditure on working account was

"These figures represent the cost of, exploratory and mining work done during that period chiefly on the 80 square miles remaining to us at Punjom, a comprehensive review of which is

It will be understood that a double motive was in view in carrying out this most important work, inevitably involving considerable expense -firstly, to extend over the greater area of our Concessions the knowledge of their mineral resources, which had hitherto been almost entirely confined to the mines included in the 20-mile block lately disposed of-and secondly. to retain our claims over the entire areas, by placing ourselves in a proper position to demand from the Pahang Government the longest possible extension of the prospecting period of our least, which was about to lapse, and on the premature expiry of which we should have had to relinquish all unselected ground.

In both directions the object has been successe fully accomplished, and whilst we now have a good knowledge of yarlous parts of both Concessions, which were lately blanks on our maps. the Directors have the great satisfaction of having obtained for you the assurance that your exclusive titles thereto will remain undisputed for another period of 5 years on the payment of a moderate yearly tage. Although such prospecting work is naturally

unremunerative in itself, reasonable expenditure in this direction must always be reverded as money well spent in the improvement of such properties as these ; and though we have so far be n unfortunate in the intrinsic value of results obtained, there is reason to hope that we may strike richer ground any day on the many discoveries in course of further examination.

During the five years in view, it may

Mr. Francis repeated that the Council had no of general depression, should such be stimulated by the assurance of success at Penjom itself or Mr. Justice Clarke-Put it the other way-the | in the neighbouring mines, it will be seen that Legislative Council have power to legislate these great fields for mining enterprise possess an intrinsic value which may not at present be

With this view our staff at the mines has been reduced to a minimum. by legislation; complete power is reserved to some having transferred their services to the her by the Letters Patent. My argument goes | Penjom Pahang Gold Company, and, from to the extent of saying that the Council cannot estimates which have been prepared we can see our way to carry out the proposed programme at an expen titure of about \$2,000 at Penjom and \$1, 00 at Sunghie Dua per month, which we shall be able to meet for nine months without calling upon you for further capital even in default of repayment of disbursements by the new Company.

In the statement of accounts the expenses of our own operations and of the establishment at Penjom (Jalis) Mines have been so divided as to show an outlay for account of the latter of . \$17,801.27. To this has to be added, though not yet entered in accounts, a sum of about \$18,000-the value of machinery and plant to be taken over, and in reimbursement of these amounts it was agreed by the London Company that we should receive £6,000. We regret to say that this claim has not yet been paid by reason of financial depression in the Pahang market, on which our offshoot is dependent for resources in London, but we are promised as early settlement and your Directors will continue to use every effort to obtain it.

The prependerating interests of this Company will shortly be represented or the Board in London by the arrival there in December of Mr. W. G. Brodie, (Chairman) to assist Mr. Ewart, their other representative, and that Board will be further strengthened by the simultaneous return Director, who has been spending some months

in Pahang. Meanwhile it is satisfactory to know that funds have been sent to the mines for current requirements on the Jalia Block, where the work is now being carried on at the expense of the new Company, and there is every reason to hope that such Necessary additions to the pumps, to deal with the recent increase of water, have been ordered will be again accessible from which it is expected soon produce material for some returns of gold.

Our operations at Sunghie Dua beyond those in the shape of out-put of tin-ore from the deposits so far opened up, the current outlay has been reduced in that direction, and it is proposed for the future to confine the work here, as at Penjom, to prospecting only, at the estimated cost of not more than \$1,000 per month,

Mr. H. M. Becher returned from London to Singapore in the middle of July, and has since been to the mines, of which he has made a full inspection. He remained several weeks at Penjom, making the necessary arrangements in alteration of the staff and programme of operations contingent on the transfer of the Jalia Block, after which he visited Sunghle Dua and inspected all the workings at that Concession. He has now come to Hongkong and presented Mr. G. Stewart opposed the motion as being his report, a copy of which you receive. Mr. Becher is now managing the "Penjom Pahang" and this Company's properties jointly-an arrangement by which they will have the continued benefit of his services with an advantageous division of his remuneration.

Mr. W. G. Brodle having resigned his seat at the Board in consequence of his departure from the Colony, it becomes necessary to elect some one in his stead.

LONDON, October 5th. Mr. Stanhope, speaking at Horncastle, denied that famine existed in Ireland. Nevertheless. failed. The Government, he said, would do all that was necessary to surmount any calamity.

question has appeared in which the writer recommends that restitution of conjugal rights view. Such an index could easily be added to be abolished or mitigated, and that the age of consent be raised to twelve years, which latter as civilisation advances, acts which were not is imperative, especially, to protect Hindoos originally distinguished by a could be promoted exercising new civil sights against public to the full rank of major offences.-Henry penalties imposed by the priesthood. The Times, commenting on the letter, says the writer of it is a personage of high authority.

Advices from Buenos Ayres state that a revolution was apprehended there on Monday night, and that all the troops were called out and the fleet prepared for action. The President preceded to barracks at midnight; for safety. The city, however, was tranquil yesterday.

The following is the result of the race for the Middle Park Plate :---

Gouverneur...... Orion NEW YORK, October 8th.

An explosion has taken place in one of the sections of the immense Dupont gunpowder mills at Wilmington, Delaware. Five other sections exploded through the concussion, and at least ten people are known to have been killed and twenty injured, including the head of the firm. The country around is utterly desolated and houses demolished for a distance of half a mile. LONDON, October 9th.

Advices received from Bermuda state that much sickness prevails there. Several deaths have occurred among the Grenadiers through enteritis, the sickness is ascribed to bad water, heat and defective housing.

WHAT IS CRUELTY?

The Divorce Bill now being discussed by the Legislative Council of New South Wales provides that the courts may dissolve marriage, not only for adultery, but for habitual drunkenness, neglect to provide, desertion, habitual cruelty, and other causes. While much controversy has been indulged in as to whether divorce can be granted by the State for any cause whatever, little attention has been paid to the clauses of the Bill which specify the grounds on which it is proposed to legalise divorce. This is a blunder on the part of those who oppose divorce. It is plain that the Bill will pass. Those who have the measure in hand should see that their intentions are clearly expressed in the various clauses, while those who oppose it might usefully employ themselves in endeavouring to

make the best of what is inevitable.

There can, of course, be very little dispute as to the interpretation which the Bill will bear, so far as most of its clauses are concerned. Adultery does not require an act of Parliament for its definition; desertion is defined as being for a period of three years or more; neglect to provide is self-explanatory; drunkenness is rather too common in this community to admit of much mistake in its recognition. Not so cruelty, There are some forms of cruelty which no one is likely to mistake. No jury or judge is likely to regard the trouncing of a woman with a prop-stick as wholesome fun, nor hauling her round by the hair of the head as mistaken fondness. There are other forms of playfulness which are sometimes indulged in that may be viewed differently. There is cruelty mental, cruelty moral, and cruelty physical; we might perhaps add also emelty to the feelings. The question does not, however, admit of being summed up in this fashion. What is cruelty to a pretty woman might be merely a charitable attention if applied to a plain one. When we were in America last year a book was issued at Washington on the subject of Divorce and Marriage Laws. It was prepared under a special Act of Congress, and contains much interesting information. We made at the time some extracts giving the facts which were held by some of the State Courts to sustain the charge of cruelty. The selections were made not because the items were more serious than the others or more ridiculous, but simply because they were short and pithy. The following are complaints made by women for which diverces

were granted :-Plaintiff alleges that defendant does not wash himself, thereby inflicting on plaintiff great mental anguish.

Defendant would not permit plaintiff to walk on the streets, with her relations; he spoke disrespectfully of her, calling her a "rip."
Plaintiff says she is subject to sick headaches, that grow worse when she smells tobacco. Defendant uses tobacco, and thus aggravates her headaches. Defendant was guilty of cruelty in not providing

supply of water at his house, and in not sepairing the said house so as to make it comiortable.

Defendant would not support plaintiff, and, when requested to do so, replied that he would not work his " toenalls off for any woman." Defendant cut off my bangs by force.

My husband would never cut his toe-nails, and I was scratched very severaly every night, as ne was very restless. Plaintiff says defendant will not work during the wook, but on Bundays he puts on his si

clothes and works hard all day, which conduct

sorely grieves plaintiff. Another case may be instanced, wherein-A rich girl disliking her guardian, went to the hospital with the intention of marrying a dying man, thinking that as a widow she would be freer and have more control over her estate. She married a man seemingly at the point of death; but the man recovered, and the wife brought suit for crucity and fraud.

The complaints of the poor husbands were not quite so varied, but the following cases show that wives were not without a taste for devilish

crucity :-Defendant violently upbraided, plaintiff and said to him : "You are no man at all "-thus causing bim mental suffering and anguish. Plaintiff says: "My wife refused to keep my

clothing in repair. She even refused to cook and never sewed on my buttons." A witness testified that he had seen plaintiff with only one button on his vest. Plaintiff further alleged that his wife would not allow him to go to fires at night; that if he went she would keep him awake until three o'clock quarrelling.

Defendant struck plaintiff a violent blow with ber bustle. Defendant has frequently evinced towards

plaintiff a hasty temper. During the last year defendant has struck plaintiff with pokers, flat-irons, and other hard

substances. Defendant aimed a red-hot poker at the head

of plaintiff. We once saw a noted book of Roman Catholic theology, compiled by some learned person of long ago, for the use of confessors, but we should say very little used. This book is in Latin, and contains a catalogue of all the sing that it was possible for man, woman, or child to have committed at the time of its publication. We say at the time of publication, since, in these days of syndicates, tramways, public parks, &c., there are plenty of sins committed which could hardly have occurred to the author. Our suggestion is that an index be prepared, setting forth all the acts of cruelty which a man can inflict on a woman or a woman inflict on a man who is her husband. Those acts. which the legislature think are worthy of divorce might be distinguished by an asterisks. There are men in the Legislature who are capable he said, the potato crop had in a large measure of drawing up such a list, so far as husbands would be affected, and there is fair reason for supposing their wives could compile, if not from A final letter on the Indian child marriage actual experience at least from hearsay, an equally complete list from a woman's point of as new modes of torture unfold themselves, and
